

Is Botox Cosmetic Right For Me?

Having a treatment with BOTOX[®] Cosmetic is one way that you can invest in your appearance. Talking with Dr. Mourad and Dr. Grayson will help determine if BOTOX[®] Cosmetic is right for you. BOTOX[®] Cosmetic was the most popular physician-administered aesthetic procedure in the United States for the fourth year in a row (surgical and nonsurgical combined). The American Society for Aesthetic Plastic Surgery (ASAPS) estimates that almost 3.3 million treatments were performed in 2005 alone—that's an increase of almost 16% over 2004.

BOTOX[®] Cosmetic is the only treatment approved by the FDA for the temporary relief of moderate to severe frown lines between the brows in people 18 to 65 years of age. With one simple 10-minute treatment, results can be seen within a couple of days and can last for up to 4 months.

What Can I expect?

BOTOX[®] Cosmetic is a safe, simple non-surgical procedure which smoothes wrinkles caused by repetitive movement of the underlying muscle. Botox Cosmetic[®] is a non-surgical method of treating facial wrinkles in the forehead, between the eyes (worry lines or 11's) and the "crow's feet" in the areas. The existence of wrinkles can be produced by over-active facial muscles. BOTOX relaxes the muscles that cause these lines to form thereby reducing the appearance of wrinkles. It can also be used to significantly reduce or completely stop sweating of the armpits, palms and soles. BOTOX[®] Cosmetic requires no downtime.
